My Profile

Operations leader with over 10 years of experience in IT and digital. I specialize in building and scaling business processes, operating models, and management systems. I helped grow a digital agency's revenue 5x in 2 years while increasing margin from 44% to 53%. I take full ownership of P&L, team growth, and building effective operating models that directly impact the company's financial performance.

Skills & Expertise

Operations Management:

- P&L, budgeting, plan vs. actual control
- Business process optimization
- OKR/KPI design and implementation
- Capacity planning, deadline management
- Management reporting

Team Management:

- Full-cycle hiring and onboarding
- Operating cadence
- Mentoring and 1:1
- Performance Review

Tools & Technologies:

- Jira, Planfix, Bitrix24
- Google Sheets, Notion, Miro
- AI for automation and analytics

Work Experience

Digital Agency impulse.guru

Main career track: July 2017 – July 2025 (8 years)

Group Lead → Head of SEO → Head of Production → COO

Chief Operating Officer (COO)

July 2023 – July 2025

- Managed a cross-functional team of up to 40 people and a portfolio of around 60 projects.
- Grew company revenue 5x in 2 years while owning P&L, annual strategy execution, and recurring management reporting.
- Increased margin by 9 percentage points through cost optimization and workload management.
- Scaled the team 3x by rebuilding hiring, onboarding, grading, 1:1, KPI, and performance review processes.
- Improved client NPS/CSI from 60% to 70% through systematic feedback collection and follow-up.
- Reduced hiring costs by approximately 60% by launching an offline trainee school.

Head of SEO → Head of Production

July 2018 – June 2023

- Built and scaled the production department from scratch to 20 specialists, creating an organizational foundation for further agency growth.
- Increased and maintained on-time task delivery above 90% through a transparent status system and weekly sprints.
- Automated operational workflows, including CRM, task templates, and process algorithms, reducing time losses across the team.
- Designed and implemented a profitability tracking system, improving transparency across projects and service lines.

Group Lead

July 2017 – June 2018

Managed SEO team, led key projects, and built working standards, quality control, and cross-team coordination.

Project Role: Fractional COO

December 2025 – February 2026 | Lish App | SaaS EdTech B2C

- Audited the operating model and built P&L from scratch, identifying cost bottlenecks.
- Introduced an operating cadence for a distributed team: sprints, planning meetings, and key metrics.
- Prepared the product for scaling by structuring the roadmap, systematizing the backlog, and developing an action plan for ASO/SEO.
